EUROPEAN QUALITY TIRES

Enjoy the power of the **NEW** **Sava intensa suv**

Spend time,
not money on your suv

intensa suv

NEW

Our new Sava intensa suv tire is a high performance summer tire especially developed for SUVs. With a combination of excellent dry and wet handling performance and attractive pricing, the Sava intensa suv is the tire of choice for SUV drivers. Moreover, the new Sava intensa suv offers high steering precision and cornering performance.

All in all, this is the perfect tire for cost-conscious drivers of SUVs that demand high performance.

1. Robust tire construction for SUV application

- Dual ply carcass with reinforced construction for load carrying capacity
- Polyamide overlay for V and W high speed ratings

2. Very good dry handling performance

- Stiff outside shoulder block for safer cornering
- Cavity shape for optimised pressure distribution during cornering
- Large center rib for precise steering

3. Excellent wet performance

- New tread compound with an optimised silica level
- Wide circumferential grooves to absorb and disperse water

4. Low noise level

- Optimised 68-pitch sequence to control noise energy distribution
- Narrow lateral shoulder grooves to optimise pattern noise level.
