EUROPEAN QUALITY TIRES

NEW Sava intensa uhp doesn't cut corners on dry handling

Ultra high performance tire
at cost-cutting price

intensa uhp

NEW

The Sava intensa uhp is our new ultrahigh performance summer tire. It combines excellent dry and wet handling performance with attractive pricing. On top of that, the new Sava intensa uhp offers lower fuel consumption levels through low rolling resistance, a lightweight construction and low energy dissipation due to its new full silica tread compound. In short, this is the perfect tire for cost-conscious drivers of high performance vehicles and sports cars.

1. Very good dry handling performance

- Stiff outside shoulder block for safer cornering
- Wide cavity shape for optimised pressure distribution during cornering
- Large center rib for precise steering

2. Excellent wet performance

- New full silica tread compound technology for optimised traction
- Wide circumferential grooves to absorb and disperse water

3. Low fuel consumption

- New series of low rolling resistance carcass materials
- New light-weight construction
- New full silica tread compound technology with low energy dissipation

4. Low noise level

- Optimised 68-pitch sequence to control noise energy distribution
- Narrow lateral shoulder grooves to optimise pattern noise level

PERFORMANCE*
