EUROPEAN QUALITY TIRES

## **NEW** **Sava eskimo suv** **stays on track** **all winter**

Great traction on snow, ice and slushy roads at a cool price

## eskimo suv

NEW

SUV

The new Sava eskimo suv is a winter tire especially designed for SUV's, delivering high performance on snow and icy roads. With its highly bladed winter tread design and optimised longitudinal and lateral tread stiffness, this new Sava tire provides great traction in all winter conditions. The full silica compound and directional tread design ensure deep water and slush snow evacuation. The snowflake symbol indicates that our new winter tire meets the strict performance standards of the tire industry.

### 1. Great Snow and Ice traction

- High blade density: 38 m blade length
- Interlocking blades
- Optimized longitudinal and lateral tread stiffness

### 2. Great wet traction

- Full silica tread compound
- Directional design
- Wide radial groove

### 3. Good mileage

- High net to gross 68%
- Optimised tread pattern depth

### 4. Low noise level

- Optimized pitch distribution
- Improved footprint shape
